Kosta Boda – the Artist Collection

Let's say a few words about Kosta Boda. Our tale begins over 250 years ago, when two county governors and generals of Charles XII's army founded a glassworks between the cities of Kalmar and Växjö in southern Sweden. The factory, and the village that sprang up round it, took their name from the first syllables of the founder's surnames:

Anders Koskull and Georg Bogislaus Staël von Holstein.

Glass manufacture began in 1742, and soon Kosta was appointed official supplier of window glass for the new royal palace then under construction in Stockholm. Seventeen of the original panes can still be seen in the west wing. The palace is also home to a large collection of modern glass, comprising both art glass and utility wares, since Kosta Boda is even today a purveyor to His Majesty the King.

Several other famous glassworks, each with an intriguing history of its own, lie within a radius of twenty or thirty miles from Kosta. These manufacture everything from domestic tableware, vases, candlesticks, dishes and bowls to the finest art glass.

Ten designers are affiliated to Kosta Boda: Bertil Vallien, Ulrica Hydén-Vallien, Monica Backström, Kjell Engman, Anna Ehrner, Göran Wärff, Gunnel Sahlin, Ann Wählström, Olle Brozén and Anne Nilsson. In the blowing room, and in the cutting, painting and engraving shops, the designers can rely on the expert assistance of craftsmen whose glassmaking skills stretch back several generations. Close cooperation between designers and craftsmen is of the first importance when it comes to transforming the designers' ideas and sketches into glass.

Artistically conceived, colourful glass with a design idiom all of its own has made Kosta Boda one of the world's leading glass brands. New collections and pieces are introduced each year, along with newcomers to series that have already won popular acclaim. New collections and exhibitions by individual artists are constantly on show in galleries, museums, shops and showrooms both in Sweden and abroad.

Welcome to Kosta Boda – the Artist Collection

Låt oss berätta om Kosta Boda. Det är en saga, mer än 250 år gammal. Den börjar med två landshövdingar och tillika generaler i Karl XII:s armé, som lät anlägga Kosta glasbruk mellan de två städerna Kalmar och Växjö i södra Sverige. Bruket, och även orten som växte upp runt omkring, fick sitt namn genom de första stavelserna i grundarnas efternamn; Anders Koskull och Georg Bogislaus Staël von Holstein (Ko-Sta).

1742 började glas tillverkas i hyttan och snart blev Kosta leverantör av fönsterglas till Kungliga Slottet i Stockholm. I dess västra valv finns sjuttion av dessa glasrutor kvar att beundra. Idag finns också modernt konst- och bruksglas på slottet eftersom Kosta Boda fortfarande är Kunglig Hovleverantör.

Inom en radie av några få mil från Kosta ligger flera välkända glasbruk. Alla har sin egen, spännande historia. Vid bruken tillverkas servisglas, vaser, ljusstakar, skålar och fat såväl som unikt konstglas.

Tio formgivare är idag knutna till Kosta Boda. Formgivarna är Bertil Vallien, Ulrica Hydman-Vallien, Monica Backström, Kjell Engman, Anna Ehrner, Göran Wärff, Gunnel Sahlin, Ann Wåhlström, Olle Brozén och Anne Nilsson. I hyttan, sliperiet, måleriet och gravörverkstaden har formgivarna hjälp av skickliga hantverkare med flera generationers yrkeserfarenhet bakom sig. Samarbetet mellan dem är mycket nära och betyder allt då formgivarna ska överföra sina skisser och idéer till glaset.

Konstnärligt, färgintensivt glas och ett alldeles eget formspråk har gjort Kosta Boda till ett av de ledande glasvarumärkena i världen. Två gånger om året lanseras nyheter tillsammans med en hel rad spännande kompletteringar av redan framgångsrika serier. Nyhetskollektioner och enskilda konstnärers utställningar avlöser varandra på gallerier, museer, showrooms och butiker såväl i Sverige som internationellt.

(From left/fr vänster) **1. Kjell Engman.** "In creating a design, I start with the circle of life. I like to make glass you can feel, glass that appeals to all of our senses and tries to make use of refraction and light. I want to paint pictures and tell stories all at the same time. What drives me, I suppose, is a sort of inner search, in which curiosity, the mysterious and mythology are all important ingredients. Glass, the living solid, is my constant companion."/

"Mitt skapande utgår från livets cirkel. Jag vill forma glas som känns, som talar till alla våra sinnen. Utnyttja brytningarna och ljuset. Skapa bilder och berätta. Jag drivs av själva sökandet där nyfikenheten, mystiken och mytologin är viktiga inslag. Glaset, den levande massan är min följeslagare."

2. Bertil Vallien. "I like working with themes. They're like maxims that might be used to set off a whole chain of events. Glass offers opportunities like no other material. It has everything. It has an inner power of suggestion; it has light, heat and cold. Interior depths have always appealed to me more than the outer surface. For me, the blowing room is the centre of everything. It's like lading matter out of a volcano and watching the glowing lava turn to ice. Knowing the exact moment at which to capture a shift of light or expression and wrench the secret from the glass is what it's all about."/

"Jag arbetar gärna med teman. Sentenser som kan inleda ett händelseförlopp. I glaset finns möjligheter som inget annat material kan erbjuda. Här finns allt; spår, ljus, värme och kyla. Djupet och insidan har alltid fascinerat mig mer än själva ytan. Hyttan är för mig det centrala. Det är som att ösa ur en vulkan, där den glödande massan snabbt förvandlas till is. Att i rätt ögonblick fånga uttrycket, ljuset och avlocka glaset dess hemligheter är utmaningen."

3. Anna Ehrmer. "For me, creativity takes place in the blowing room. This is where glass is conceived, where it is fashioned and comes alive. I want to work with glass, not against it. In my designs, I try to follow along with the melt, with the sheer power of the glass, although I try at the same time to identify the simple and the subtle. For me the aim is to freeze a moment in time, to capture an expression and give it artistic form. Or, put simply, to

transform hot into cold."/

"För mig är hyttan skapelsen. Här föds, formas och lever glaset. Jag vill ta vara på glasets egna liv, arbeta med och inte emot. Följa glasmassan, krafte som inte går att tygla, men samtidigt se det enkla och subtila. Frysa ett skeende, ta hand om och forma ett uttryck. Från varmt till kallt."

4. Ann Wählström. "As an artist, I find myself returning again and again to the spiral. The ability to freeze a process, to capture a movement in which you can sense the heat and softness of molten glass is something that appeals to me enormously. Glass is immediate and fragile, rather as I am myself. The transition from the honey-soft, glowing melt to a ringing hard, though fragile, piece of glass is always exciting. The heat and colours of the blowing room, the hectic pace of the work, are essential ingredients of my designs."/

"Jag återkommer ofta till spiralen som form. Att snabbt frysa ett förlopp, en rörelse där man kan förnimma den mjuka och varma glasmassan tilltalar mig. Glaset är omedelbart och otåligt, lite som jag själv. Omvandlingen från den honungsmjuka och glödande massan till det klingande hårda, men ändå sköra glaset är alltid lika spännande. Hettan, intensiteten och färgerna i hytta är något jag försöker fånga i mina föremål."

5. Gunnel Sahlin. "Glass is never-ending. There are always new possibilities. And no other material can capture a colour and give it such luminous brilliance as glass. Most of all, however, I'm drawn to its spatial qualities – for me, the third dimension makes glass truly fantastic to work with, a material that suits me as a person as well as my approach to design. With it, I can instil sensuality, sensitivity even, into the most vigorous of designs."/

"Glaset är oändligt, det erbjuder ständigt nya möjligheter. Det finns inget annat material som lånar sig till så mycket, som lyfter fram och bär färger på samma vis. Främst lockas jag av glasets olika dimensioner. Att från skissens enda dimension se något växa fram och ta form i hyttan är alltid lika fantastiskt. Den processen inspirerar mig."

6. Göran Wärff. "The melt, glowing in the furnace, is what beckons me on

new discoveries. With every gather, I feel an almost irresistible urge to give new expression to the magic of glass, to create a work that will be the bearer of light, the sea and the air. Each piece that I design I try to make a receptacle for light, for warmth and sensuality."/

"Den glödande glasmassan inne i ugnen lockar mig till upptäckter. Varje anföring ger mig på nytt lusten att förmedla upplevelsen av glasets magi. Att göra ett stycke glas till bärare av ljuset, havet och luften. Jag vill skapa en boning åt ljuset, värmen och det sinnliga."

7. Monica Backström. "I try to retain an open mind and be ready to move on at all times – to abandon convention and cross into uncharted territory. To break loose, in other words. In designing, I try to sense atmosphere. I try to understand moods and emotions and turn them into glass that glows with an inner fire. Glass that talks about light, about tension and uncertainty, about life itself. The spectrum is infinite. Glass, a plastic medium, has a wonderful range of expression."/

"Jag vill leva med öppna sinnen, beredd att alltid ta språnget. Från tryggheten ut i det okända. Våga bryta loss. Spåra, känna och omvandla stämningar och upplevelser till glas som brinner. Som förmedlar ljuset, spänningen och det ovissa. Livet. Ett oändligt spektra. I glaset finns plastiken och uttrycksformerna."

8. Ulrica Hydman-Vallien. "Desire, energy, passion – I can love and hate all at the same time. I'm both argumentative and totally committed. With glass, everything is possible. It's immediate, intense, demanding; never is it just plain old glass. I use it to paint on and tell tales. I have no rules, and I allow my instinctive feelings to take me wherever they want."/

"Lust, energi och passion, jag älskar och hatar på samma gång. Jag är både bråkig och engagerad. I glaset är allt möjligt. Det är omedelbart, intensivt, krävande och aldrig lagom. Jag målar och berättar både på och genom det transparenta glaset. Utan vare sig regler eller ramar, styrd av min känsla och instinkt."

9. Martti Rytökönen. "No other material has quite the same properties. I usually

say that glass has an extra dimension in its transparency, in the fact that you can see right through it. Glass suits my personality. It is very much a living material, one that is hard to control. It is complex, with a hard surface and an inner depth, combining seriousness with good humour. There is no end to what it can do; there's always more to discover. That's what drives me forwards..."/

"Det finns inget annat material som har samma egenskaper. Jag brukar säga att glas har en extra dimension, i form av transparensen, möjligheten att se igenom. Glaset passar min personlighet; det är levande och svårt att styra. Komplex med både yta och djup, lek och allvar. Det tar aldrig slut, det finns alltid mer att upptäcka. Där ligger drivkraften..."

10. Olle Brozén. "I have always been fascinated by the decorative: by the symmetries of nature and life, by patterns. Intuition is central to my creativity. I like to call it the intellect of the hand. Glass encloses a mental space in a spectrum of colour and transparency, direct, immediate yet ineffable."/

"Det ornamentala har alltid fascinerat mig. Naturens och tillvarons symmetri och mönsterbilder. I skapandet är intuitionen viktig för mig. Jag brukar kalla den för handens intellekt. I glaset finns det mentala utrymmet; spektrat av färger, transparensen, det direkta, omedelbara och samtidigt svårfångade."

11. Anne Nilsson. "Simple, yet challenging. Restrained, but at the same time warm and personal. Five pages about myself as designer and artist. I want my products to give an impression of modernity, yet remain timeless. I want them to challenge convention, to be bold and experimental. To follow unexpected paths, as well as those that are natural and self-evident. This is the foundation of my art. Glass is my medium of expression."/

"Enkelt, men ändå utmanande. Återhållsamt, men samtidigt varmt och personligt. Fem sidor av mig som formgivare och konstnär. Jag vill att uttrycket i mina produkter ska kännas modernt, utan datering. Att bryta mot konventioner, våga och experimentera. Följa oväntade spår tillsammans med det givna och självklara. Det är grunden i mitt konstnärskap. Glaset är mitt uttrycksmedel."

Limited-edition art glass/Konstglas i limiterad upplaga

Art glass from Kosta Boda

Artistic designs, intense colours and a highly individual mode of expression have made Kosta Boda one of the world's leading glass brands.

Besides designing glass for the regular Kosta Boda collection, our artists are also free to work with art glass – limited-edition, specially signed pieces that are often much sought after by collectors. Kosta Boda art glass is divided into two categories: unique pieces and limited edition. Unique pieces are, of course, just that. No more than one piece is made of any particular item. Limited editions are manufactured in runs of between 25 and 1,000 pieces. All art glass is marked with the product number, the name of the artist and the size of the edition, so that the purchaser will know exactly how many pieces there are in that particular series. Editions comprising less than 60 pieces are individually numbered, e.g. "25/60".

The following pages illustrate a small selection of our art glass. These are sculptural, exclusive, limited-edition pieces created by Kosta Boda's designers in close cooperation with glassblowers and craftsmen who are masters of their art.

Konstglas från Kosta Boda

Konstnärligt, färgintensivt glas och ett alldeles eget formspråk har gjort Kosta Boda till ett av de ledande glasvarumärkena i världen.

Utöver katalogsortimentet arbetar våra konstnärer fritt med konstglas – speciellt signerat glas som tillverkas i begränsad upplaga och ofta får ett samlarvärde. Konstglaset delas in i två grupper; unikat och limiterad upplaga. Ett unikat finns det ett enda av. Den limiterade upplagan tillverkas i serier som består av mellan 25 och 1000 exemplar. Allt konstglas signeras med artikelnummer, konstnär och upplagestorlek så att köparen vet exakt hur många konstglasobjekt det finns i serien. I upplagor under 60 exemplar anges även individuell numrering, t ex "25/60".

På följande sidor presenteras ett litet urval av vårt konstglas. Det är skulpturala och exklusiva konstglasobjekt i limiterad upplaga skapade av Kosta Bodas konstnärer i intimt samarbete med mästare och skickliga hantverkare.
